

Mido Lotto has been proudly operating in California since launching our services here in 2016. For the past 9 years, we have been developing and offering our services in the open, with the full knowledge of the CA Lottery. Through the Mido Lotto app, we have made the Lottery more accessible to people that might not otherwise play.

We strive to develop a product that Californians are proud to use, and our efforts have been appreciated by hundreds of thousands of customers to the benefit of public education in California. Mido Lotto is currently the highest-rated Lottery ticket app in the US with more than 35,000 verified reviews and an average rating of 4.8 stars.

As Californians turn to Mido Lotto as a safer, more convenient way to play their favorite Lottery games, the CA Lottery has now decided to communicate their interpretation of the regulations that govern how the Lottery is run. However, there is no legislation that specifically authorizes the Lottery to endorse **or prohibit** courier operators in California. The CA Lottery's recent comments are simply a reflection of their interpretation.

We are absolutely confident in the legality of our business and the services we offer. Before launching, Mido Lotto obtained legal opinions from some of California's top legal professionals to confirm the legitimacy of our operations in the absence of any explicit enabling legislation. Their view is simple; it is not against the law to offer a service where we take an order for a Lottery ticket and fulfill that order at an authorized, state-licensed Lottery retailer.

Ordering from a Lottery courier is no less legitimate than getting a lift from a rideshare driver, having your groceries delivered, or texting a friend and asking them to get you a Lottery ticket.

Mido Lotto welcomes formal legislation that provides greater clarity to all interested parties and we have long sought a constructive dialogue with the Lottery over this issue. However, in the absence of new legislation that prohibits or permits Lottery courier services, we will continue to provide a safer and more convenient way to play that is in full compliance with the legislation as it exists today.

We appreciate the trust that our California customers have placed in us and will continue to serve their needs through the Mido Lotto app.

Kevin Kramer, CEO
Mido Lotto
